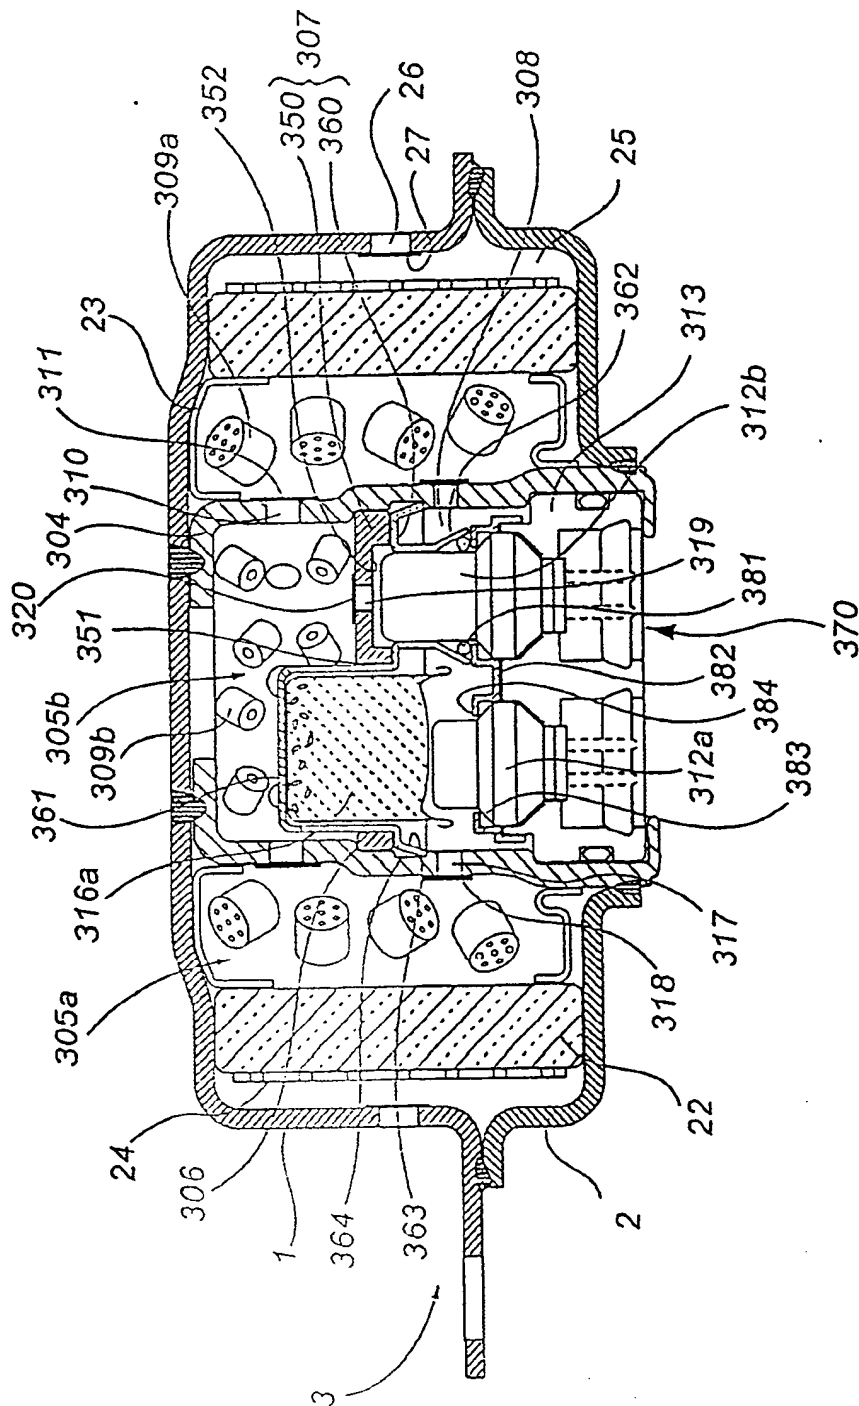

Fig. 6

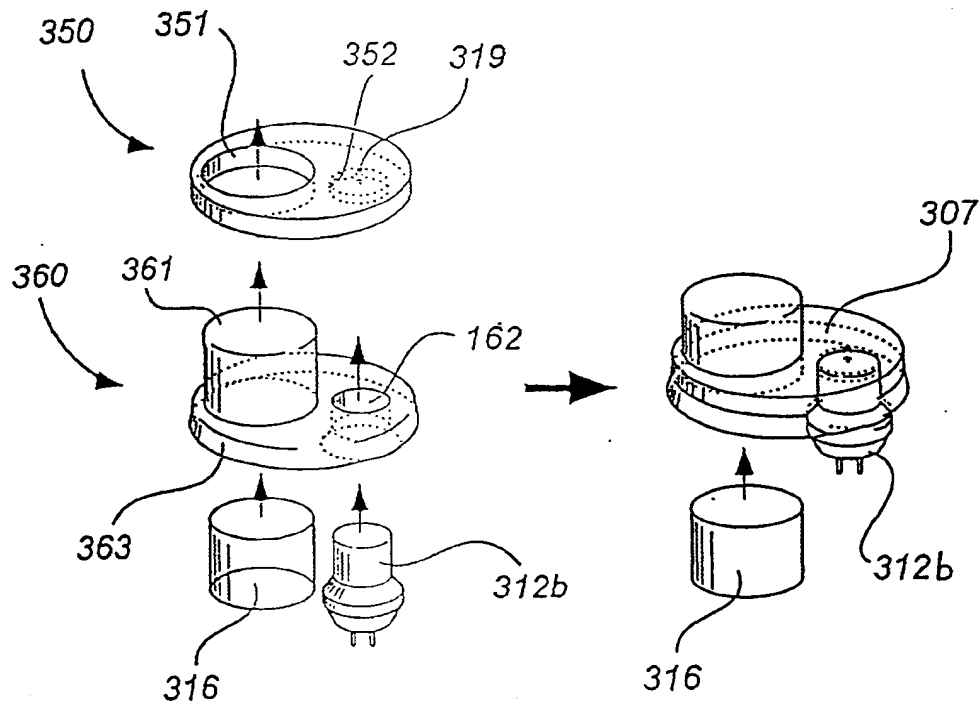

FIG. 1 is a cross-sectional view of a multi-chambered device, likely a medical device such as a catheter or probe. The device features a central shaft (1170) with a handle (1101) and a distal tip (1102). The shaft is divided into several sections: a proximal section (1103) with a handle, a middle section (1104) with a central lumen (1105), and a distal section (1106) with a distal lumen (1107). The device is shown in a cross-section with various internal components and layers labeled with reference numerals.
